Sizes – to help choose the best size we suggest you measure your favourite shirt across the chest just under the arms (buttoned up and laid flat). If you want to know collar sizes, please e-mail. Measurements listed are typical and approximate as shirts do vary.

Embroidered Shirts – view web-site or meet us at a gig to see pictures

The web-site will soon be updated so that you can order embroidered shirts from our stock designs on-line. This form can be used to order at gigs or by post.

Our range of stock designs grows continually, often because of what people have asked for. If you don't see what you want please contact us; we might be able to help. In addition to the stock designs we design and digitise in-house. This enables us to produce custom designs as often requested by DJ's and bands as well as individuals.

Many of our stock designs can be personalised at no extra charge. For example, you might not be an Elvis fan but would like a shirt with another artist or band name within the stars instead. Or perhaps you want specific colours. Unless you specify otherwise, we'll choose the embroidery colours to compliment your shirt. We use wonderfully glossy Madeira threads (but not metallic threads as they tend to fray and break).

Most shirts embroidered-to-order cost £32 including a large back embroidery and a smaller embroidery on the front left chest (your left as you are wearing it). Some of the designs are a little more expensive if they have a higher stitch-count.

Shirt with front embroidery in group A and back embroidery in group C = £32
Shirt with front embroidery in group A and back embroidery in group D = £35
Shirt with front embroidery in group B and back embroidery in group C = £35
Shirt with front embroidery in group B and back embroidery in group D = £38

As shirts are embroidered-to-order they are non-returnable unless faulty. Our returns policy is available on our web-site or on request. Most orders are completed within three weeks of confirmed order. If you are in a hurry, e-mail or telephone first to see if we can meet your timescale.
